"Author's Intent: To protect the health and welfare of the horses.

GENERAL RULES AND REGULATIONS G. Animal Welfare and Medications Provisions Applicable to all NRHA Events.

Section 7. Equine Medications, The Therapeutic Substance Provisions.

(a) No horse competing in an event approved by the NRHA is to be shown in any class (see also section 1(a), last sentence) if it has been administered in any manner or otherwise contains in its tissues, body fluids or excreta a forbidden substance.

Change section (i) to read

i. For the purpose of this rule a forbidden substance should be considered any substance that is not FDA approved for equine use and prescribed by a licensed veterinarian." -

Here is a link to the current rule that is in the rule book now that will go into effect on 2015 if this proposal does not pass.

[2014 nrha rule book general rules section the drug policy starts on page 48.](#)
